

MASTER OF ENGINEERING MANAGEMENT (MEM)
PETITION TO WAIVE AN MEM PROGRAM CORE COURSE REQUIREMENT

MEM students may petition to take an additional elective in lieu of an MEM program core course. If a waiver is requested for an MEM core course, the Dartmouth instructor(s) who will be teaching the course during the current academic year must approve the course equivalence by reviewing the syllabus and any other relevant materials of the prior coursework. If there are two professors teaching the course, *both* signatures must be obtained. Once approved by the Dartmouth instructor(s), send this form to Thayer.Registrar@dartmouth.edu. The Thayer Registrar will forward for final approval by the MEM Executive Director. MEM students who are approved for an MEM program core course waiver must submit this completed form, together with their MEM program plan.

NAME: _____ (please print)

Previous College/University: _____ **Degree/Year:** _____

MEM Program Core Course # and Name: _____

Prior Course # and Title

Term & Year Taken/Final Grade
